

Annual Report 2018-2019

Amanecer site: Bolivia, Latin America

Our Amanecer site focuses on individuals who are high risk and homeless; mainly girls, boys, and teenagers who have little or no family support. These vulnerable children are welcomed to our site and receive attention, affection, and an education. Other children from families living in poverty also receive support, with the goal being to strengthen family bonds to promote a happy and healthy home environment.

Education

Goals

1. To ensure that children and adolescents finish their school studies with values of solidarity, companionship and commitment towards their professional training.
2. To facilitate access to technology (computers) to perform tasks and practical work.
3. For young people to access higher education.

Achievements

1. **95%** of children and adolescents have achieved good academic performance thanks to school support and follow-up.
2. Sponsored children have had the necessary material, support and follow-up for their studies.
3. The children have achieved excellent grades within the state schools, achieving the first academic positions. Many have come to the realization that they can achieve their goals!

Health & hygiene

Goals

1. To strengthen bonds with health institutions.
2. To achieve health insurance.

Achievements

1. Boys and girls have improved their personal hygiene habits, thus improving their health.
2. Family Circles received health and hygiene training.
3. Working in conjunction with public health institutions, dental medical care has been achieved through the Sole Health System (Sistema Único de Salud, SUS).

Nutrition

Goals

1. To get more children and families to opt for healthy meal choices.

Achievements

1. The nutritional quality of food served at our site has improved, encouraging healthy growth and development for children.
2. Height and weight exams for children have been conducted so that we can better identify and treat undernourished and malnourished children.
3. Vegetable cultivation at our site has reduced meal costs and improved nutritional content.

Community

Goals

1. For caretakers to achieve independent work within their possibilities so that they can be the protagonists of their own change and livelihood.

Achievements

1. Mothers within their Family Circles received training in the prioritization and management of their resources and budgets.
2. Circle group leaders and mothers strengthened their decision-making capacities in their areas.

Family

Goals

1. For sponsored children to achieve reintegration into their families.
2. To motivate family solidarity within the community.

Achievements

1. Children and families were trained in conscious and responsible communication.
2. Families were trained on issues related to the prevention of violence and human trafficking.
